

Round Coils EM Series

Customer-specific sizes especially for oblong-shaped semi-finished products

PRODUCT DESCRIPTION

Housing made of special-cast aluminium, protection class IP44 or better. Standard diameters of the effective opening are 30, 60 or 120 mm.

Low material thicknesses are degaussed directly with mains voltage. Larger material thicknesses and / or hard steels require the use of a low frequency generator.

PROCEDURE

Continuous degaussing.

APPLICATION

Degaussing of tubes, bars and semi-finished goods as well as small elongated parts. Also suited for small drills, milling cutters or taps as well as other hand-held tools.

TECHNICAL DATA

	Active opening	Connection	Nominal current leff	Protection class
Round coils EM series	Ø 30–120 mm	Mains power supply or Low Frequency Generator	< 10 A < 30 A	IP44 or better
