

VFM2 STATISTICS

Evaluation software for the VFM2 field strength meter

DESCRIPTION

VFM2 STATISTICS is a PC evaluation software for the VFM2 field strength meter for the wireless transmission and reception of measurement values via the Bluetooth® interface of the VFM2 field strength meter as well as logging and statistical evaluation. The individual measured values and measurement series can be supplemented with project data and comments as well as images for clear documentation. Measurement reports can be generated from one or more measurement series, exported in CSV file format, printed out or digitally processed if required.

SCOPE OF DELIVERY

- 4 GB USB stick with software VFM2 STATISTICS
- USB dongle (one software license)
- USB Bluetooth®* interface stick 4.0 for the PC
- Instruction manual (languages DE/EN)
- Practical packaging box

**if no Bluetooth® 4.0 (or higher) PC interface is available.*

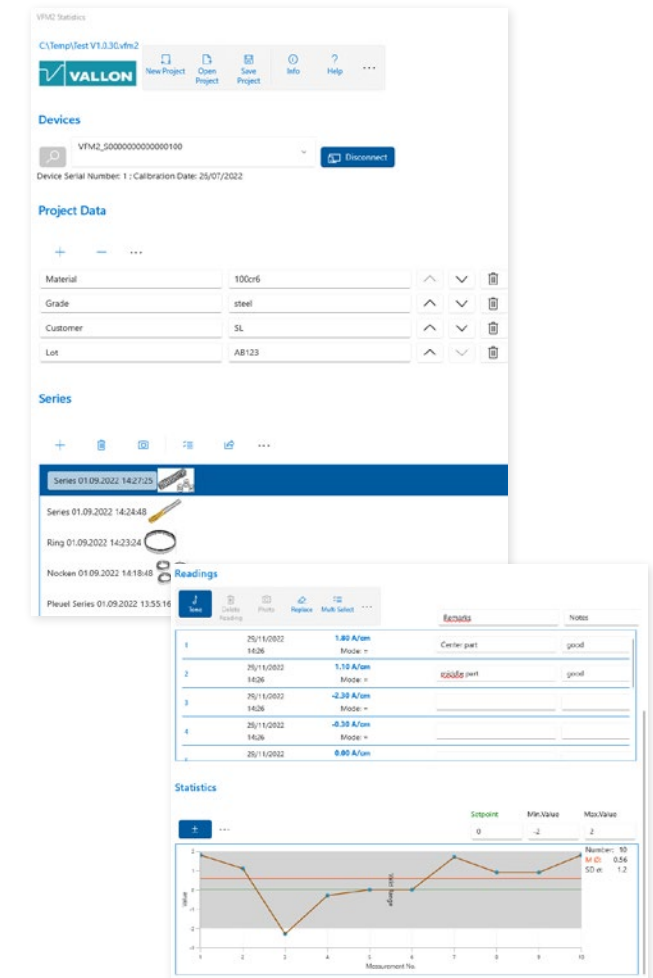

CHARACTERISTICS

- Wireless measurement data transmission
- Coupling of multiple VFM2 with software
- Single or series measurement (2 values per sec.)
- Project data entry via free text fields, adding images with snapshot function
- Limit value entries: setpoint, Min, Max
- Statistical evaluation: mean value, standard deviation, setpoint, Min, Max
- Acoustic good-bad indication of the incoming measured value
- Data export in CSV file format
- Create/print measurement reports
- User languages: DE and EN

SYSTEM REQUIREMENTS

- Microsoft® Windows 10® operating system (64-bit)
- PC interface Bluetooth® Standard 4.0 (or higher)
- 1x USB** port for dongle of the software license
- 1x USB** port for Bluetooth® interface stick 4.0

***USB Standard 2.0 or 3.0*
